

FT DATA MANAGER

Launch your professional career! We have an exciting opportunity for someone to lead and support our Data and IT team, in a highly engaging and fast paced environment. The Data Manager contributes to enriching member's lives by overseeing the delivery of data analysis and reporting for the organization.

We offer a highly competitive wage, career progression, ongoing learning and development, and an impact on our local community. Join us on the beautiful Sunshine Coast and get the best of both worlds – a relaxing lifestyle filled with recreational activities including boating, hiking, and much more, while only a short 40-minute ferry trip from Vancouver. The incumbent will have some flexibility to work remotely, with travel required.

What You'll Do

The Data Manager contributes to enriching member's lives by overseeing the delivery of data analysis and reporting for the organization. The Data Manager will conduct thorough data analysis, as well as the design and implementation of analytics programs, the generation of reports and presentation of actionable, insightful information to assist the Executive and the branch network to make informed business decisions. Performs and/or directs administrative duties on the SCCU Salesforce platform, including data ingress, report and dashboard development, and minor declarative development. This position leads the data team through coaching and mentoring to ensure service excellence to the branches and departments. This position requires a self-motivated individual with the ability to work in partnership with respect to other SCCU functions and external vendors to meet the needs of stakeholders. The incumbent will have excellent leadership, communication, time management, problem solving, prioritizing and analytical skills.

What Does the Ideal Candidate Bring?

In addition to a bachelor's degree, preferably in Management Information Systems, Information technology or applicable field and strong data knowledge and experience, we are looking for an individual who is incredibly organized, with an ability to prioritize workflow and anticipate needs, with the ability to communicate results to various audiences; experience in Salesforce Administration would be considered an asset. You will also have a minimum of 3 years of data warehousing/analytics/BI systems experience. You are adept at problem solving, decision making, establishing strong working relationships, and working collaboratively.
